ABOUT COOKIES

A cookie is a file of letters and numbers containing an identifier (a string of letters and numbers) that is sent by a web server to a web browser and is stored by the browser. The identifier is then sent back to the server each time the browser requests a page from the server.

TYPES OF COOKIES

A cookie can be classified by its lifespan and the domain to which it belongs.

By lifespan, a cookie is either a:

- session cookie which is erased when the user closes the browser
- or
- persistent cookie which remains on the user's computer / device for a pre-defined period of time.

As for the domain to which it belongs, there are either:

- first-party cookies - which are set by the web server of the visited page and share the same domain.
- third-party cookies stored by a different domain to the visited page's domain.

This can happen when the webpage references a file, such as JavaScript, located outside its domain.

TonyG Ltd currently do not use persistent cookies on our website.

The purposes of any session cookies used will be essential to:

- Improve or administer the website's usability.
- Facilitate the use of our website search engine.
